Engraved with its own number, each 830LE is as individual as your creations. This top-of-the-line sewing machine possesses everything you need to create your works of art. The 830LE also comes with a free Exclusive Alphabet Collection and Embroidery CD with 1,000 designs. Don't let this limited edition and its limitless creativity slip away. Visit [bernina8series.com](http://bernina8series.com) to discover it for yourself.

PERFECT YOUR ART

## Access to an Exclusive 830LE VIP Retreat

2 amazing days of inspirational workshops and engaging projects opening with a VIP reception in the Chicago area. Exclusive to owners of the BERNINA 830LE.

### The ultimate sewing and embroidery system.

The BERNINA 830LE is in a class all its own. It is the crown jewel among all machines with technology so advanced and features so thoughtful that it almost becomes an extension of your own creativity. Get ready to go bigger, go faster and make the most of every—single—stitch.

Designed by Switzerland's leading engineers to outperform any other home sewing machine, the 830LE gives you the space, the speed, the power and the ergonomics to create projects that until now you could only dream about. It is a melding of legendary Swiss precision and forward thinking that takes you beyond current boundaries and into the realm of unlimited creativity.

The 830LE is a masterpiece, built from a BERNINA family tradition that spans four generations. We carefully developed every feature after listening to the needs and desires of thousands of sewing artists like you. A work of art for your works of art.

## Grandiose thinking allowed.

More space. More speed. More fun. Think about this: with the BERNINA 830LE you can embroider up to 1,000 stitches per minute—one of the fastest home sewing machines available. And you have the most space to the right of the needle for your largest projects. Plus, the innovative jumbo bobbin pops in and out with ease and holds 40% more thread than most machines, so you can spend more time creating and less time prepping. These three features alone make the BERNINA 830LE a necessity for anyone who is passionate about embroidery.

### Blazing Speeds.

The BERNINA 830LE boasts up to 1,100 sewing stitches per minute and up to 1,000 for embroidery. Sturdy construction keeps your machine steady. Even at high speeds, your most detailed embroidery designs come out gorgeous and precise. Plus, you can easily adjust your speed with a convenient slide-speed control right on the front of your machine.

### Unsurpassed Embroidery Capabilities.

No matter what you're thinking, it can be done with the remarkable embroidery capabilities of the BERNINA 830LE. What would you create with endless embroidery? Imagine the ease of seamlessly aligning motifs with automatic reference points. Imagine what you can create with the largest embroidery field available — with the optional Jumbo Hoop, no repositioning or rotating of the hoop is required.

### Thread Delivery System.

Our exclusive multi-spool holder keeps large, medium and small cones at the ready. In addition, the bobbin winder is located on the front of the machine for easy access, and it lets you select speed and amount of fill.

### Centralized Color Touchscreen.

Now ultimate creative control is at your fingertips and right before your eyes. The BERNINA 830LE's centrally located touchscreen allows you to view both needle and screen in one quick glance. It also features brilliant, high-definition graphics and vivid colors, and it is ultra-responsive to your touch.

### Most Space. Period.

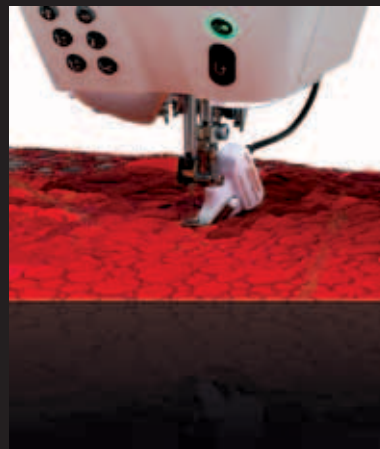

No matter what type of sewing you do, the BERNINA 830LE gives you all the space you need to always be at your most creative. An expansive 15-inch extended arm reaches a full 12 inches to the right of the needle. Plus, the 12.8-inch diagonal space and 5.12-inch height provide the 830LE with the highest degree of maneuverability of any home sewing machine.

## Innovation comes standard.

There's a host of unique features and accessories that come standard on the 830LE sewing and embroidery system, and once you use them, you'll wonder how you ever did without. For example, the exclusive slide-on table allows you to transition from embroidery to sewing, without ever removing it. And the innovative BERNINA Dual Feed makes it easy to sew on hard-to-manage fabrics. The included Alphabet Collection, exclusive to the BERNINA 830LE, and Embroidery CD with 1,000 designs kindles the creativity of both novice and enthusiast. Plus, a collection of our all-metal presser feet and three standard hoops give you more choices than ever.

### The BERNINA Stitch Regulator.

A technologically-advanced but simple-to-use presser foot that allows you to master free-motion sewing in no time at all. The BERNINA Stitch Regulator regulates the length of your straight and zigzag stitches, so you can focus on your creativity.

### Jumbo Bobbin.

The unique jumbo bobbin featured on the BERNINA 830LE offers up to a massive 40% more thread capacity and pops in and out with the touch of a finger. That means fewer interruptions, fewer breaks to rewind your bobbin, and a lot more time to set your imagination free.

## Space. Handling. Control.

Remove the embroidery module and the BERNINA 830LE is a creative tool for the most inspired sewers. Its wide-open space with the smooth extended arm makes it perfect for your largest creations to your smallest projects. Even the presser foot height adjustment makes your thickest layers seem diminutive. And the entire space is lit by bright LED lights. The multiple spool holder keeps your thread options at the ready. The BERNINA 830LE gives you control when you need it and automated assistance when you don't. Features include auto-threading, auto-secure, auto-tension regulator, auto-feed dog drop, auto-presser foot height adjustment and auto-fabric-thickness recognition. For extra assistance, on-screen animations come to the rescue if you need help with any functions.

### BERNINA has all the options you need.

The custom-made BERNINA 8 Series cabinet, with its ample drawers and drop-leaf sections, is specially designed to accommodate the size and power of the BERNINA 830LE.

For quilters, the BERNINA Quilt Frame will help you manage your most expansive projects. The machine glides over your work smoothly and effortlessly with beautiful free-motion stitching every time.

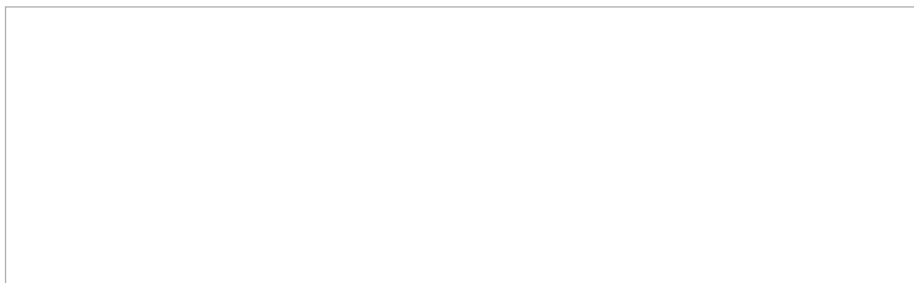

When it comes to embroidery, our Jumbo Hoop (260x400mm) lavishes you with space to stitch out your most impressive embroidery designs in one pass.

And when you're ready to move beyond the 830LE's powerful built-in editing capabilities, the advanced technology of BERNINA Embroidery Software v6 will give you the ultimate in creative options.
